

Sun Country Highway Pedestals

Increase safety & accessibility

Install your Sun Country Highway Charging Station almost anywhere. Install your EV charging station on a single or double mount pedestal to improve accessibility, and protect cables against damage and harm. Constructed from sturdy, light weight 4" x 4" aluminum, Sun Country Highway pedestals are able to withstand all weather conditions. *Chargers sold separately

- Convenient – keep charging cables off of the ground and vehicle connectors protected
- Tough – durable aluminum pedestal extension, enclosed cable management retractor
- Universal – works with our EV Series and SCH series electric vehicle chargers
- Reliable – backed by 1-year warranty and outstanding customer service
